EDRINGTON-BEAM SUNTORY UK DISTRIBUTION LIMITED PENSION SCHEME

IMPLEMENTATION STATEMENT

YEAR ENDED 31 OCTOBER 2020

Section 1: Introduction

This document is the Annual Implementation Statement (“the statement”) prepared by the Trustees of the Edrington-Beam Suntory UK Distribution Limited Pension Scheme (“the Scheme”) covering the scheme year (“the year”) to 31 October 2020.

The purpose of this statement is to set out:

- Set out the extent to which, in the opinion of the Trustees, the Scheme’s Statement of Investment Principles (“SIP”) required under section 35 of the Pensions Act 1995 has been followed during the year;
- Details of how and the extent to which, in the opinion of the Trustees, the Scheme’s policy on engagement and voting (as set out in the SIP) has been followed during the year; and
- A description of voting behaviour (including the “most significant” votes made on behalf of the Trustees) and any use of a proxy voter during the year.

The Scheme makes use of a wide range of investments; therefore, the principles and policies in the SIP are intended to be applied in aggregate and proportionately, focussing on areas of maximum impact.

In order to ensure that investment policies set out in the SIP are undertaken only by persons or organisations with the skills, information and resources necessary to take them effectively, the Trustees have delegated some responsibilities. In particular, the Trustees have appointed a Fiduciary Manager, Towers Watson Limited, to manage the Scheme’s assets on a discretionary basis. The Fiduciary Manager’s discretion is subject to guidelines and restrictions set by the Trustees. So far as is practicable, the Fiduciary Manager considers and seeks to give effect to the policies and principles set out in the Trustees’ SIP.

Section 2: Voting and Engagement

Industry wide / public policy engagement:

Regarding engagement, the Trustees' SIP states that:

- “The Fiduciary Manager has appointed Hermes EOS to undertake public policy engagement on its behalf”; and
- “... the Trustees (through the selection of the Fiduciary Manager and with its approach to ESG [environmental, social and governance] issues) seeks to be an active long-term investor... The Fiduciary Manager has a dedicated Sustainable Investment resource and a network of subject matter experts. The consideration of ESG issues is fully embedded in the investment manager selection and portfolio management process, with oversight undertaken on an ongoing basis.”

As noted above, the Fiduciary Manager has partnered with EOS at Federated Hermes (EOS) to undertake public policy engagement on behalf of its clients (including the Trustees). The Fiduciary Manager communicates client policies/sentiment to EOS via the Client Advisory Council (chaired by Willis Towers Watson) and EOS subsequently engages with legislators, regulators, industry bodies and other standard-setters to shape capital markets and the environment in which companies and their investors operate, a key element of which is risk related to climate change. Engagement activities by Hermes EOS on public policy over the year included:

- Participation in a series of meetings with the UK Government's Department for Business, Energy and Industrial Strategy in order to help set out the UK's decarbonization roadmap and steps to achieve agreed climate targets,
- Feedback/assistance on the production of a new anti-microbial resistance benchmark with the aim of reducing the use of anti-biotics in agriculture
- Co-signing of an investor letter to the Brazilian government in support of the Amazon Soy Moratorium, an agreement which aims to limit damage and deforestation caused by soy production, supporting expansion only on existing agricultural land.
- Climate Action 100+, an investor initiative aiming to ensure the world's largest corporate greenhouse gas emitters take necessary action on climate change. EOS is among over 370 investors with over \$35tn under management who have signed up to the initiative. Further, they are leading or co-leading the engagement on 27 companies and collaborating with other investors on another 14 companies as part of this initiative.

The Fiduciary Manager is also engaged in a number of industry wide initiatives and collaborative engagements including:

- Tier 1 signatory of the UK Stewardship Code
- A signatory of the Principles for Responsible Investment (PRI) and active member of their Stewardship Advisory Committee
- A member of the Institutional Investors Group on Climate Change (IIGCC)
- A founder of the Coalition for Climate Resilient Investment (with the World Economic Forum)

DB Trustee's engagement policy

As set out above, the Fiduciary Manager of the Scheme engages with the Scheme's investment manager's on behalf of the Trustees. The Trustees have considered and reviewed their stewardship and engagement policies as part of the recent reviews of their Statement of Investment Principles. The Trustees have delegated day-to-day ESG integration and stewardship activities (including voting and engagement) to its investment managers.

The majority (around 92%) of the Scheme's equity holdings and all the listed real asset holdings as at the end of the year are held with Legal and General Investment Management (“LGIM”) in pooled investment vehicles and are managed on a passive basis relative to a defined index. As such, the voting entitlements in these funds lie with LGIM. The Fiduciary Manager's view is that LGIM leads its peers in

**EDRINGTON-BEAM SUNTORY UK DISTRIBUTION LIMITED
PENSION SCHEME**

IMPLEMENTATION STATEMENT

YEAR ENDED 31 OCTOBER 2020

terms of proactivity and taking visible stances on topics they believe to be important. However, the Fiduciary Manager continues to engage with LGIM on areas for development, namely around resourcing, and improving the breadth and depth of corporate engagements. During the year, the Fiduciary Manager rated LGIM positively for ESG integration, voting and engagement. LGIM’s voting policy can be seen in appendix 1.

The equity holdings with LGIM are split across four funds:

Fund	Approach to Environment, Social and Governance (ESG) factors
Robeco Global Sustainable Multi-Factor Equities	The fund is managed to an ESG constraint that targets ESG scoring at least 20% better than a traditional global market capitalisation index on issues including carbon footprint, water usage, energy consumption and waste generation, with exclusions applied to certain industries (e.g. controversial weapons).
World Adaptive Capped ESG Universal	The fund applies tilts both up and down to companies that are leaders or laggards respectively on a range of ESG criteria, with exclusions applied to certain industries (e.g. controversial weapons).
Magellan Listed Infrastructure	This fund improves on passive equivalents as ESG considerations are a core part of the investment process. Many of the firms they invest in have clear plans to reduce carbon emissions.
Heitman Global Prime Property	This fund has recently introduced an explicit ESG/Climate aware stock screen to its process and excludes the lowest ranking stocks from its investment universe

The remainder of the Scheme’s equity holdings (around 8% of the equity holdings) are invested with an active manager in a China equity fund. The Fiduciary Manager rates this manager positively with respect to their ESG integration and engagement. Corporate engagement and asset stewardship is a key part of the investment process for the active manager. The manager’s long-term investment horizon, approach of investing in companies with strong governance structures and history and experience of investing in Asian markets, including China, supports that they are well-equipped to engage with company management with a view to improving outcomes. In terms of voting, the firm’s policy is publicly disclosed annually and it is positive that all votes are exercised where feasible. Please refer to appendix 1 for details of the manager’s voting policy with regard to proxy voting.

Company level engagement and rights attached to investments (including voting):

As set out in the SIP, the Trustees’ policy is to delegate the exercising of rights (including voting and stewardship) and the day to day ESG integration to the Scheme’s investment managers. The table below sets out the voting activities of the Scheme’s equity investment managers over the year, including details of the investment managers’ use of proxy voting.

In addition, LGIM and the active equity manager reported on the most significant votes cast within the funds managed on behalf of the Scheme, including reasons why the votes identified were considered significant, the rationale for the voting decision and the outcome of the vote. We have included a selection of the significant votes below:

Most significant votes cast (latest available)	Coverage in portfolio
<p>Company: Barclays</p> <p>Resolution: Approve Barclays' Commitment in Tackling Climate Change and approve ShareAction Requisitioned Resolution</p> <p>Summary: The hard work is just beginning. Our focus will now be to help Barclays on the detail of their plans and targets, more detail of which is to be published this year. We plan to continue to work closely with the Barclays board and management team in the development of their plans and will continue to liaise with ShareAction, Investor Forum, and other large investors, to ensure a consistency of messaging and to continue to drive positive change.</p> <p>How the manager voted: For</p> <p>Rationale for being considered a significant vote: Since the beginning of the year there has been significant client interest in our voting intentions and engagement activities in relation to the 2020 Barclays AGM. We thank our clients for their patience and understanding while we undertook sensitive discussions and negotiations in private. We consider the outcome to be extremely positive for all parties: Barclays, ShareAction and long-term asset owners such as our clients.</p> <p>Outcome of the vote: For</p>	<p>Allocations in: World Adaptive Capped ESG Universal</p>

IMPLEMENTATION STATEMENT

YEAR ENDED 31 OCTOBER 2020

<p>Company: Amazon</p> <p>Resolution: Shareholder resolutions 5 to 16</p> <p>Summary: In addition to facing a full slate of proxy proposals, in the two months leading up to the annual meeting, Amazon was on the front lines of a pandemic response. The company was already on the back foot owing to the harsh workplace practices alleged by the author of a seminal article in the New York Times published in 2015, which depicted a bruising culture. The news of a string of workers catching COVID-19, the company's response, and subsequent details, have all become major news and an important topic for our engagements leading up to the proxy vote. Our team has had multiple engagements with Amazon over the past 12 months. The topics of our engagements touched most aspects of ESG, with an emphasis on social topics:</p> <ul style="list-style-type: none"> • Governance: Separation of CEO and board chair roles, plus the desire for directors to participate in engagement meetings • Environment: Details about the data transparency committed to in their 'Climate Pledge' • Social: Establishment of workplace culture, employee health and safety <p>The allegations from current and former employees are worrying. Amazon employees have consistently reported not feeling safe at work, that paid sick leave is not adequate, and that the company only provides an incentive of \$2 per hour to work during the pandemic. Also cited is an ongoing culture of retaliation, censorship, and fear. We discussed with Amazon the lengths the company is going to in adapting their working environment, with claims of industry leadingsafety protocols, increased pay, and adjusted absentee policies. However, some of their responses seemed to have backfired. For example, a policy to inform all workers in a facility if COVID-19 is detected has definitely caused increased media attention.</p> <p>How the manager voted: Of 12 shareholder proposals, we voted to support 10.</p> <p>Rationale for being considered a significant vote: The market attention was significant leading up to the AGM, with:</p> <ul style="list-style-type: none"> •12 shareholder proposals on the table – the largest number of any major US company this proxy season •Diverse investor coalitions submitting and rallying behind the proposals, including global, different types of investors and first time co-filers/engagers •Substantial press coverage – with largely negative sentiment related to the company's governance profile and its initial management of COVID-19 •Multiple state treasurers speaking out and even holding an online targeted pre-annual meeting investor forum entitled 'Workplace & Investor Risks in Amazon.com, Inc.'s COVID-19 Response' <p>Anecdotally, the Stewardship team received more inquires related to Amazon than any other company this season.</p> <p>Outcome of the vote: Against</p>	<p>Allocations in: Global Sustainable Multi-factor Equities Index World Adaptive Capped ESG Universal</p>
<p>Company: EXXONMOBIL</p> <p>Resolution:Elect Director Darren W. Woods</p> <p>Summary: In June 2019, under our annual 'Climate Impact Pledge' ranking of corporate climate leaders and laggards, we announced that we will be removing ExxonMobil from our Future World fund range, and will be voting against the chair of the board. Ahead of the company's annual general meeting in May 2020, we also announced we will be supporting shareholder proposals for an independent chair and a report on the company's political lobbying. Due to recurring shareholder concerns, our voting policy also sanctioned the reappointment of the directors responsible for nominations and remuneration.We believe this sends an important signal, and will continue to engage, both individually and in collaboration with other investors, to push for change at the company. the vote, the CEO confirmed that the group would listen more to dissenting shareholders</p> <p>How the manager voted: Against</p> <p>Rationale for being considered a significant vote: We voted against the chair of the board as part of LGIM's 'Climate Impact Pledge' escalation sanction.</p> <p>Outcome of the vote: For</p>	<p>Allocations in: Global Sustainable Multi-factor Equities Index World Adaptive Capped ESG Universal</p>

PENSION SCHEME**

IMPLEMENTATION STATEMENT

YEAR ENDED 31 OCTOBER 2020

<p>Company: <u>Haier Smart Home</u></p> <p>Resolution: Related Party Transactions (2020-22)</p> <p>How the manager voted: Against</p> <p>Summary: Intra-group deposit services. Pursuant to the Listing Rules, connected persons with a material interest in the transaction are not permitted to vote.</p> <p>Rationale for being considered a significant vote: A vote against management</p> <p>Outcome of the vote: For</p>	<p>Allocations in: Active manager – China Equity</p>
<p>Company: <u>Lenovo Group Ltd.</u></p> <p>Resolution: Authority to Issue Shares w/o Pre-emptive Rights; Authority to Issue Repurchased Shares</p> <p>How the manager voted: Against</p> <p>Summary: This is a potentially large dilution. If large fund-raising is required, the manager would prefer a rights issue for all shareholders, and therefore voted against management.</p> <p>Rationale for being considered a significant vote: A vote against management</p> <p>Outcome of the vote: For</p>	<p>Allocations in: Active manager – China Equity</p>

<p>Company: <u>Great Wall Motor</u></p> <p>Resolution: Appraisal Measures for Implementation of 2019 Restricted Share and Share Option Incentive Scheme</p> <p>How the manager voted: For</p> <p>Summary: The manager felt that equity-linked incentives help improve alignment with minority interests. Key Performance Indicators such as sales volume and profit have also been announced.</p> <p>Rationale for being considered a significant vote: Vote against provider recommendations</p> <p>Outcome of the vote: For</p>	<p>Allocations in: Active manager – China Equity</p>
<p>Company: <u>China Telecom</u></p> <p>Resolution: Authority to Issue Shares w/o Preemptive Rights</p> <p>How the manager voted: Against</p> <p>Summary: Concerns about potentially excessive dilution. Company also does not need to issue new shares given a healthy balance sheet.</p> <p>Rationale for being considered a significant vote: A vote against management</p> <p>Outcome of the vote: For</p>	<p>Allocations in: Active manager – China Equity</p>
<p>Company: <u>Sun Art Retail Group Limited</u></p> <p>Resolution: Election of Directors</p> <p>How the manager voted: For</p> <p>Summary: Having two Auchan representatives out of 6 people on the Audit Committee is probably acceptable in this case, as Auchan no longer runs the operation. In fact, their presence on the Audit Committee could be useful in preventing influence of Alibaba from becoming excessive with regards to financial arrangements.</p> <p>Rationale for being considered a significant vote: A vote against provider recommendations</p> <p>Outcome of the vote: For</p>	<p>Allocations in: Active manager – China Equity</p>

**EDRINGTON-BEAM SUNTORY UK DISTRIBUTION LIMITED
PENSION SCHEME**

IMPLEMENTATION STATEMENT

YEAR ENDED 31 OCTOBER 2020

<p><u>Company: China Mengniu Dairy</u></p> <p>Resolution: Elect JIAO Shuge</p> <p>How the manager voted: For</p> <p>Summary: Jiao has been on the board for several years. His experiences in financial industry are solid. And I don't think major shareholders want to be unreasonably diluted.</p> <p>Rationale for being considered a significant vote: A vote against provider recommendations</p> <p>Outcome of the vote: For</p>	<p>Allocations in: Active manager – China Equity</p>

Section 3: Summary and conclusions

3. We consider that all SIP policies and principles were adhered to.

Appendix 1: Manager voting policies

LGIM's voting policy is provided below:

“Policy on consulting clients:

LGIM's voting and engagement activities are driven by ESG professionals and their assessment of the requirements in these areas seeks to achieve the best outcome for all our clients. Our voting policies are reviewed annually and take into account feedback from our clients.

Every year, LGIM holds a stakeholder roundtable event where clients and other stakeholders (civil society, academia, the private sector and fellow investors) are invited to express their views directly to the members of the Investment Stewardship team. The views expressed by attendees during this event form a key consideration as we continue to develop our voting and engagement policies and define strategic priorities in the years ahead. We also take into account client feedback received at regular meetings and/ or ad-hoc comments or enquiries.

Process for deciding how to vote:

All decisions are made by LGIM's Investment Stewardship team and in accordance with our relevant Corporate Governance & Responsible Investment and Conflicts of Interest policy documents which are reviewed annually. Each member of the team is allocated a specific sector globally so that the voting is undertaken by the same individuals who engage with the relevant company. This ensures our stewardship approach flows smoothly throughout the engagement and voting process and that engagement is fully integrated into the vote decision process, therefore sending consistent messaging to companies.

Use of proxy voting services:

LGIM's Investment Stewardship team uses ISS's 'ProxyExchange' electronic voting platform to electronically vote clients' shares. All voting decisions are made by LGIM and we do not outsource any part of the strategic decisions. Our use of ISS recommendations is purely to augment our own research and proprietary ESG assessment tools. The Investment Stewardship team also uses the research reports of Institutional Voting Information Services (IVIS) to supplement the research reports that we receive from ISS for UK companies when making specific voting decisions.

To ensure our proxy provider votes in accordance with our position on ESG, we have put in place a custom voting policy with specific voting instructions. These instructions apply to all markets globally and seek to uphold what we consider are minimum best practice standards which we believe all companies globally should observe, irrespective of local regulation or practice.

We retain the ability in all markets to override any vote decisions, which are based on our custom voting policy. This may happen where engagement with a specific company has provided additional information (for example from direct engagement, or explanation in the annual report) that allows us to apply a qualitative overlay to our voting judgement. We have strict monitoring controls to ensure our votes are fully and effectively executed in accordance with our voting policies by our service provider. This includes a regular manual check of the votes input into the platform, and an electronic alert service to inform us of rejected votes which require further action.”

The active manager – China equity's voting policy is provided below

[We use] Glass Lewis as proxy voting service vendor to process votes on resolutions of investment companies in their shareholders' meetings. The service platform allows us to source voting ballots from multiple custodians, provide voting research papers with detailed analysis and recommendations it also allows us to submit voting decisions in an efficient centralised manner. It also possesses a reporting function on voting data in various formats which is helpful in reporting to our clients.
